

Over the Top Quilt and Design Order Form

(Please print and include with quilt)

Name: _____

Address (if shipped): _____

Phone: _____ Email: _____

Quilt Description: _____

(Pattern name, pattern designer, fabric collection)

Quilt Size: (width) x (length) _____ = _____ Total Square Inches

1. Type of Quilting (Check one)

Regular Density e2e (\$0.02 psi) Budget Friendly e2e (\$0.017 psi, see pattern page for options)

Semi-custom (\$.03 cents psi)

2. Batting (Check one)

50/50 cotton/bamboo (96" wide) 80/20 cotton/wool (96" wide) 100% cotton white (96" wide)

80/20 cotton/poly (96" wide) 100% wool (90"x108") 100% cotton (120" wide)

80/20 cotton/poly black (96") Provide your own

3. Backing (Check one)

Provide your own Backing size _____ 3"- 4" on all sides larger than quilt top

Backing fabric chosen from website _____

4. Thread (Check one)

Quilt Top: Specific Color: _____ Match to quilt top Use a contrasting color

Backing: Specific Color: _____ Match to backing Use a contrasting color

5. Desired Pattern: _____ Pick for me

6. Quilt top or backing directional? yes no (if yes, place safety pin on top middle)

7. Quilt trimmed after Stitching (no charge, optional) yes no

8. Binding: (optional)

sew to front of quilt (\$.06 per linear inch) sew to back and machine quilt to front (\$.12 cents per linear inch)

9. Social Media

Occasionally I share pictures of customer quilts on my Instagram and website to showcase the stitching, and beautiful quilt designs.

yes, that sounds great tag me @ _____ no thanks

10. **Special Instructions:** Please include any information that might help me understand exactly what you want. (For example what size quilting you generally like large, average, or dense)

Over the Top cuts excess batting and backing from quilt after top stitching at no extra charge. All cut off remnants are returned to you when I ship or you pick up your quilt. I try my best to blend tucks, puckers, and stretched areas. Occasionally I will need to steam or make small folds in order for the quilt to lay flat and end up square. It does not happen often but is a possibility.

Pricing

*Follow these steps to estimate the cost of your quilt (psi = per square inch)
5% GST will be added to your invoice separately*

1. Calculate the area of your quilt.

Multiply width x length in inches. (Example: a throw quilt measuring 50" x 60" is 3000 square inches)

2. Multiply the area of your quilt by the price per square inch

(Example: for a basic edge to edge quilting for above example sizing it would be \$.02 psi or $3000 \times 0.02 = \$60.00$)
Pricing varies depending on the complexity or density of the quilting pattern chosen.
Edge to Edge..... \$0.017- \$0.02/psi depending on design and density

3. Add the cost of batting and/or backing

I use the shortest side of the quilt to measure out batting.
example: for a quilt 50"x60" I would cut 55" of batting (five extra for quilting) so 55" divided by 40"(1 meter) = 1.4 meters. I return all extra batting and backing to the customer.

- 100% cotton white (96") \$16 per meter
- 80/20 cotton/wool (96") \$20 per meter
- 80/20 cotton/poly (96") \$14 per meter
- 50/50 cotton/bamboo (96") \$16 per meter
- 80/20 cotton/poly bleached (108") \$16 per meter
- 80/20 cotton/poly black (96") \$16/m
- Hobbs Queen 90" x 90" 100% wool - \$60 package
- Backing (styles on website 108" wide) \$16 per meter

5. Add optional binding charge.

Binding is offered at an additional charge. Customer provides fabric.
6 cents per running inch to sew on the front for you to hand stitch to the back.
12 cents per running inch for me to sew onto the back and machine quilt to the front of the quilt

6. Add costs of extra services you desire and surcharges:

Piecing your quilt backing - \$10 per seam
Stabilizing the edge of finished quilt - 6 cents per running inch
5% GST tax

7. Add optional shipping charges:

If your quilt needs to be shipped, you will be responsible to cover shipping fees/shipping insurance. There is no additional charge for local pick up. After your quilt is complete you will receive an email with payment information including return shipping fees. After the transaction is complete your quilt will be sent back to you to enjoy.
